

High-performance drum feeder with low feed height for comfortable working.

With a capacity of up to 20,000 cycles/h, the TA 20 is also deployed for the small folds of rotary printing sheets.

Technical details

| | |
|-----------------------------|---|
| Capacity | 3'000 - 20'000 sheets/h |
| Format min. | 75 x 148 mm |
| Format max. | 310 x 430 mm |
| Product thickness | max. 5 mm |
| Pressure vacuum pump | 25 m3 |
| Feeding height | 1'090 - 1'130 mm, with height-adjustable feet |
| Exit height | 980 - 1'020 mm |
| Exit extension | 250 mm |
| Deposit table | behind |
| Fixing cotter | for staple |
| Space requirement | approx. 1'300 x 700 mm (L x B) |
| Weight | approx. 340 kg |
| Power supply | 3 x 400VAC / N / PE 50/60Hz / 16A |
| Power | 0,75 kW |
| Vacuum pump | 1,5 kW |
