

Extraction unit ASSUGO 4040[®]

Efficient, space-saving, competitively priced

Filter unit for cleaning and recirculation of dust-laden air

Dust-free, compact paper waste

Reduced waste volume

Facts and Figures:

Applications:

- Suction of paper cuttings and dust
- Cleaning the dust-laden air and recirculation into the production

Optionen:

- Shredder SH 550 for the shredding of the punch grids

Technical data:

Capacity: approx. 1'200 kg / h
Extract volume: max. 8'000 m³ / h

Benefits:

- Dustfree production
- Reduced waste volume by the simultaneous use of a SH 550 Shredder

BOGRAMA's competency is die-cutting
