

STA 550 BK stack delivery

STA 550 BK Automatic stack delivery, for inline production with BSR 550 Servo rotary die-cutter

For the counted stacking of small format labels, business cards and cards of all kinds, whether rectangular, square, round or contour-cut, for up to 9 product streams.

- Automated process, reduces labor to a single person
- Counted stacking
- Fast make-ready due to external format change
- Can be integrated into downstream systems such as robots, banding or packaging machines

Technical details

Infeed hight	fixed hight to BSR 550 Servo
Sheet format max.	550 x 750 mm
Sheet format min.	210 x 297 mm
Format min.	50 x 60 mm
Format max.	530 x 230 mm
Collector shaft	For up to 9 product streams, depending on format size
Stack height	max. 150 mm
Outfeed	manual pickup, roller table, 90° interface for cellophane wrapping machine
Mobility	mobile on wheels
Space requirement	approx. 1'880 mm x 1'580 mm (L x W)
Weight	approx. 1'000 kg
Power supply	3 x 400VAC / N / PE 50/60Hz / 16A (Standard)
Control	24 VDC
Capacity of drives	4,5 kW
