

SAB 550 / *750 stream delivery

The SAB 550 / 750 stream delivery is used for multiple-up production. Formats from A3 to 35 x 35 mm (minimum) can therefore be delivered in streams

- Round belt infeed for optimised product delivery
- Powered top belts with size-independent stream belt
- Preselection and total counters
- Motorised height adjustment

Available in two working widths, optionally with stream belt extension to 2 meters

Technical details

Working width	max. 550 mm / *750 mm
