

Producing card decks in series

Automated Playing Card Production System consisting of a BOGRAMA BSR 750 rotary die-cutting machine and an ACC 750 DHS Automatic Card Collator and Stacker.

The **BOGRAMA System 750** combines rotary die-cutting and delivery into a high-performance solution for **industrial playing card production**.

With speeds of up to **3,500 decks per hour**, **format changeovers in under 60 minutes**, and **optional full inline automation**, the system sets a new benchmark.

Key features:

- 1 to 3 decks per sheet or multiple sheets per deck
- Simultaneous contour and inner die-cutting
- Operated by only one person
- Expandable with downstream units
