

## BSR 750 Rotary die-cutter

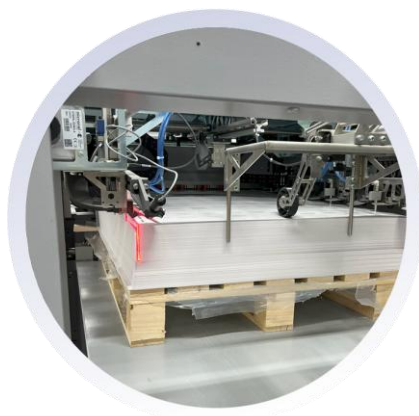

for more efficiency  
for more flexibility  
for more quality

 Swiss Made

# BSR 750 – Die-cutting in 750 x 1,050 format

“The Beast” redefines top quality and efficiency.

BOGRAMA's precision and advanced automation set new benchmarks in print finishing. The **BSR 750** stands for faster, more flexible production and a sustainable reduction in production costs.

Pallet feeder for single sheets  
from 200 gsm up to 0,65 mm.  
Stack height 1'100 mm (43"), including pallet

Flexible die technology (incl. male/female tooling)

**Nickless die-cutting**

Die-cutting, creasing, perforating, kiss-cutting, internal die-cutting, and embossing in a single pass.

**Tool change in just 10 minutes**

Stripping elements for precise deflecting the waste matrix and separating the products.

Tool-free adjustment for fast changeovers

**Applications:**

For all types of die-cut products

Die-cutting, creasing, perforating, kiss-cutting, embossing and internal cut-outs

**Technical Data:**

Performance: 8,000 sheets/hour

Sheet size max. 750 mm x 1,050 mm (29.5" x 41.3")

Sheet size min. 420 x 350 mm (16.5" x 13.8")

Die-cut size max. 730 x 1,030 mm (28.7" x 40.6")

Die-cut size min. 50 x 65 mm (2.0" x 2.6")

Material thickness: min. 200 g/m<sup>2</sup>, approx. 0.65 mm (0.026")

**Benefits:**

Nickless die-cutting

Inline stripping including internal cut-outs

High level of automation

Simple and intuitive operation

Agile and flexible production

Perfect for B1 workflows
